PROJECTS

Avataran — The Digital Ramayana Monument <i>Next.js, TypeScript, Tailwind, Node.js, WebSocket, Redis, Framer Motion</i>	<i>Personal</i> • Live Demo Available
- Built an interactive digital monument reimagining the Ramayana for modern audiences, replacing dense scripture text with chronological Kanda parallax storytelling, Web Audio sitar/flute orchestration, vertical video reels (“Chitra”), and real-time WebSocket chat (“Samvad”). - Engineered for high concurrency with horizontal WebSocket scaling and a Redis Pub/Sub backplane; shipped as an offline-capable PWA, live on Vercel & Render.	
DevTrack <i>React 18, Groq (Llama 3.3), Node.js, Firebase, GitHub API</i>	<i>Personal & Hackathon</i> • Live Demo Available
- Built a ‘Consistency Engine’ merging live GitHub data with learning logs to capture a developer’s growth and streaks, not just their current portfolio snapshot. - Integrated Llama 3.3 for security vulnerability audits and automated codebase complexity hotspot identification; awarded ‘Best Innovative Project’ for its actionable ‘What Next’ suggestions and premium skeuomorphic UI.	
Maa-Janki Hospital <i>React, Tailwind CSS</i>	<i>Client Work</i> • Live Demo Available
- Built a Hindi & English bilingual website for a single-doctor hospital fielding daily call volume for basic medications and appointments, letting patients view the doctor’s profile and book directly online. - Enabled instant appointment confirmation emails, patient reviews, and direct WhatsApp contact; 80%+ of users now book appointments through the website instead of calling.	

WORKSHOPS & TRAINING

Kshitij 2026 (IIT Kharagpur) — Summer Web Dev Camp <i>Full-Stack Developer</i>	May 2025 – Jun 2025
- Ranked in the Top 10 in IIT Kharagpur’s Kshitij Web Development Summer Camp, a competitive remote intensive. - Applied responsive design and component-based architecture principles under direct mentorship from IIT Kharagpur organizers.	
Cloud Study Jam (GDGoC)	2025
- Completed the full 2025 Cloud Study Jam syllabus covering cloud storage buckets, virtual machines, and core infrastructure concepts. - Explored 8+ Google Cloud tools hands-on (Compute Engine, Cloud Storage, Pub/Sub, Gemini API) and shared takeaways through peer sessions.	

LEADERSHIP

GDGoC STCET Kolkata <i>Web & Full-Stack Development Coordinator</i>	2025 – 2026
- Mentor juniors in web development, Git workflows, and technical problem-solving. - Manage project workflows and version control using GitHub and agile practices.
